Resolvable®

A practical reference for consistent brand work.

Visual identity, product structure and editorial guidance assembled from supplied logo masters, exhibition artwork and current public website content.

Version 1.0 · 11 November 2026

Source-backed facts + labelled recommendations

Two product identities

Resolvable® | AI

Software and connected capabilities

Approved knowledge, customer-facing AI, advisor tools and useful insight.

Resolvable® | Outsourcing

Managed customer service people

Trained teams, coverage and the management around the work.

Independent offers that can work together. Confirm the actual scope and separate commercial terms.

Typography: family still unverified

The supplied text is outlined and contains no named fonts. Website CSS could not be audited. This board uses Arial as a temporary substitute; it is not identified as the official brand font.

Strong, readable headlines.

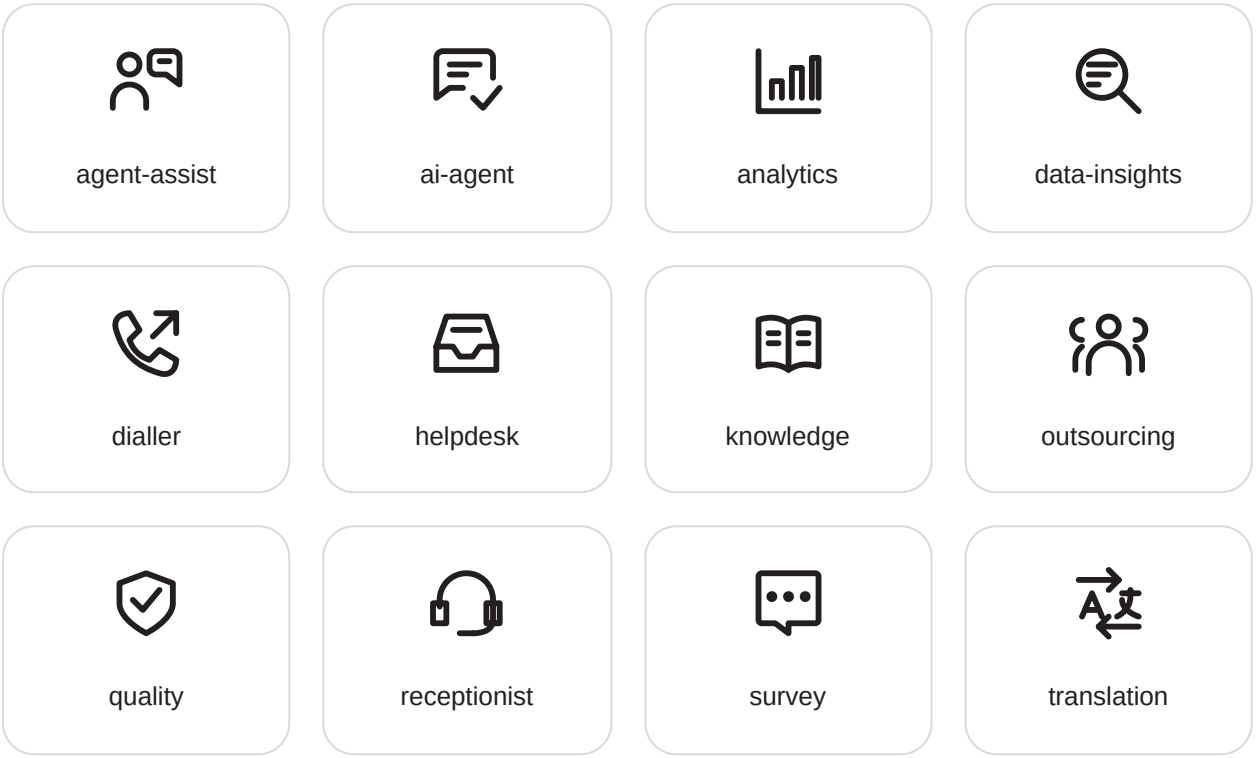

Use a clean sans serif, a clear hierarchy, short paragraphs and space around the message.

Warm. Capable. Practical.

Write in British English. Explain the customer need, the mechanism and the next step. Keep claims specific and evidenced.

Proposed companion icons

Original 24 × 24 outline icons created for this working skill. These are not supplied or approved official feature icons.

The supplied exhibition reference

Campaign claims and offer terms must be rechecked before reuse. PDF colour conversions can differ from exact SVG master colours.

Use the full skill

Start with SKILL.md. Read the source register and known gaps, product reference, logo selection table and production checks.

Working brand reference. Original supplied assets retained. No official font, icon library, print colour specification or account-wide skill installation is implied.
